PROFESSIONAL SUMMARY

Senior Lead Software Engineer with 7+ years of experience in full-stack web and mobile development using Spring Framework, React, and React Native. Experienced in leading high-performing teams and driving cross-functional collaboration overseas (UK, India, Myanmar, Bangladesh, and the Philippines). Skilled in people management, optimizing DevOps CI/CD pipelines, spearheading fintech POC initiatives, and delivering scalable, enterprise-grade solutions using Agile Scrum, Kanban, and Waterfall methodologies.

EMPLOYMENT

Lead & Senior Lead Software Engineer at Metrobank

Nov 2021 – May 2025 (Metrobank) - Present (Novare)

- Officially employed by MDI Novare and deployed full-time to Metrobank.
- Developed a financial literacy and investment mobile app for new investors of Metrobank with over 100K+ downloads and 4.0+ star rating.
- Led the creation of a dynamic forms web app for back-office requirements.
- Modernized a legacy system for processes such as check encashment and cash deposit for digital banking.
- People manager of 6 senior developers with a 4.2/5 average annual rating.
- Instructor for Novare's boot camp (50 students) on Spring MVC, Spring Boot, and Java Basics. Awarded highest-rated instructor for Batch 23.

Associate & Software Engineer at Finastra

April 2019 - Nov 2021

- Developed new features and improved components for online banking. Customized banking products and supported global services for clients in Myanmar and Bangladesh. Served a collective online customer base exceeding an estimated 1 million users.
- Frequently served as Scrum Master and handled DevOps activities, including server maintenance, automation, and product releases.

Junior Developer Volunteer & Intern at BotBros AI

May 2018 – Feb 2019

- Built an English Learning and a Human Resource system for local clients.
- Created a mobile-responsive informational site for a client in Germany.
